ABOUT ME

I am a Full Stack Web Developer with over 2.5 years of hands-on experience in developing, optimizing, and maintaining responsive web applications.

Strong expertise in Laravel, Core PHP, WordPress, React, Node.js, and backend development using MySQL and PostgreSQL, with solid experience in API integration.

Proficient in HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS, with a focus on writing clean, efficient, and scalable code.

SKILLS

Backend Development

- Laravel
- Core PHP
- Node.js
- RESTful API Development & Integration

Frontend Development

- HTML
- CSS
- JavaScript
- React.js
- Bootstrap
- Tailwind CSS

Web Technologies & Tools

- Responsive Web Design
- MVC Architecture
- Version Control (Git)

EDUCATION

University of Technology :

Bachelor of Computer Applications (BCA) — *Graduated May 2023*

Academic Performance: A grade

Major Project :

Farmers Choice – Developed a dynamic web application using PHP, HTML, CSS, JavaScript, and MySQL, aimed at providing an efficient online platform for farmers to connect with buyers and access essential agricultural resources.

EXPERIENCE

LARAVEL / FULL STACK WEB DEVELOPER

Pranshtech Solutions, India   **(July 2023 – Present)**

Worked as a full-stack developer with a primary focus on Laravel, while also gaining hands-on experience with React, Node.js, and WordPress within the same organization.

Laravel & Backend Development

- Developed and maintained robust Laravel web applications using clean MVC architecture
- Designed and consumed RESTful APIs (JSON) for web and mobile applications
- Integrated payment gateways (Stripe, Razorpay) with secure webhook handling
- Implemented role-based authentication, authorization, and admin panels
- Designed, optimized, and secured MySQL databases
- Built API-based backend systems with token-based authentication

Real-Time & Node.js Features

- Worked with Node.js for real-time functionality and background task processing
- Developed a real-time chat system integrated with Laravel for instant communication

Frontend & UI Collaboration

- Collaborated with UI/UX teams using Metronic theme
- Built dynamic interfaces using HTML, CSS, JavaScript, jQuery, and AJAX
- Ensured responsive, performance-optimized user experiences

WordPress Development

- Developed and managed custom WordPress websites
- Worked on theme customization, plugin development, and CMS optimization
- Integrated third-party APIs and built fully manageable admin panels

React & Modern JavaScript Exposure

- Built interactive UI components using React
- Worked with React + Node.js projects involving API integration and real-time communication
- Contributed to projects such as ConvertGo and a Live Chat Application
